Summary

Full Stack Developer with 3+ years of experience in React, React Native, Node.js, Express.js, Redux, MongoDB, SQL, and API development. Experienced in building scalable web and mobile applications, integrating payment gateways, optimizing performance, and deploying apps on the Google Play Store. Strong in problem-solving, UI/UX optimization, and delivering production-ready systems.

Technical Skills

Frontend: React.js, Next.js, React Native, Redux, Redux-Saga, React Hook Form, Tailwind CSS, Material UI
Backend: Node.js, Express.js, GraphQL, REST APIs
Mobile: React Native, Firebase, Razorpay, Stripe, AsyncStorage, SQLite
Databases: MongoDB, PostgreSQL, MySQL
Tools: Git, GitHub, AWS Amplify, Jest, Branch.io, Webpack

Experience

Kifwat India Pvt Ltd — Full Stack Developer (Aug 2024 – Present)

- Developed and maintained web applications using React.js, Next.js, Tailwind CSS, and Material UI.

- Built scalable mobile apps using React Native with Redux and Redux-Saga.

- Implemented Stripe and QR-code-based payment solutions.

- Integrated Firebase Storage, Messaging, and Realtime Database.

- Collaborated with teams to deliver new features and optimize app performance.

CosmostakeR — Full Stack Developer (Jul 2022 – Jul 2024)

- Built production-level websites using React.js, Next.js, Tailwind CSS.

- Developed mobile apps using React Native, Redux-Saga, and optimized performance.

- Implemented Razorpay payments and reusable UI components.

- Improved UX and solved performance issues in collaboration with the team.

Projects

Through Me Veggies — Grocery Delivery App (React Native, Razorpay)

Play Store: `https://play.google.com/store/apps/details?id=com.chetan03.throughmeveggies`

- Designed and developed complete grocery app with product catalog, search, cart, checkout, and order history.

- Implemented authentication, secure session handling, and offline persistence using Async-Storage.

- Integrated Razorpay for secure payments.

- Published and maintained on Google Play Store with versioning and bug fixes.

NovelBeat — Novel Reading App (React Native, Node.js, Branch.io)

Play Store: `https://play.google.com/store/apps/details?id=com.novelbeat`
App Store: `https://apps.apple.com/us/app/novelbeat/id6746536498`

- Published full-featured novel reading and writing app on Google Play Store.

- Implemented chapter reading, bookmarking, offline access, and writer tools.

- Integrated Branch.io for deep linking to novels and user profiles.

- Built secure authentication, performance optimization, and chapter rendering.

The Next Scene — Event Booking App (React Native, Stripe)

- Built event booking app similar to BookMyShow with React Native.

- Integrated Stripe for secure ticket purchasing.

- Implemented event discovery, ticket selection, deep linking, and confirmation screens.

- Published on Play Store and App Store; added Firebase deep linking.

Flexpack — ERP Printing Solution (MERN, Redux-Saga, Handsontable)

- Built ERP-like printing solution with Excel-style tables using Handsontable.

- Implemented machine calculation logic, inquiry workflow, and mapping features.

- Managed frontend and backend using React, Node.js, Redux-Saga.

Quiz Nation — Admin Panel (React.js, Redux-Saga, Tailwind)

- Built and optimized admin panel UI for quiz management.

- Integrated APIs using Redux-Saga and developed responsive UI using Tailwind CSS.

Elacart — Serverless E-Commerce APIs (AWS Lambda, GraphQL)

- Built GraphQL APIs using AWS Lambda and Amplify.

- Managed deployment, scaling, and CRUD operations via JSON-view tools.

Busyplace.fr — Multi-Subdomain App (React.js, Node.js, MySQL)

- Implemented e-signing, Stripe payments, multi-subdomain session handling.

- Built UI using Tailwind CSS with Node.js backend integration.

Paygo — Barcode Scanning App (React Native, Firebase)

- Built barcode scanning app with React Native and Firestore database.

- Created admin panel for product uploads, barcode generation, and store management.

Niche — College Information App (React Native, Firebase)

App Store: `https://play.google.com/store/apps/details?id=com.nicheinc.nichealpha`

- Implemented knowledge-based platform for accessing detailed college info.
- Added push notifications using Firebase Messaging.

Kiwi Property — Real Estate App (React Native)

App Store: `https://play.google.com/store/apps/details?id=com.kiwiresidences`

- Developed property listing app with sale/rent features.
- Implemented authentication, secure sessions, and Play Store deployment.

PSSR-Mobile — Quality Inspection App (React Native, SQLite)

- Stored inspection responses in local SQLite DB and auto-synced to server.
- Managed complete offline workflow and local database operations.

Education

B.Tech in Information Technology (CGPA: 7.52)
RGPV University, Bhopal
Astral Institute of Technology and Research, Indore (2021)
